

# ***Larry Botham***

## **Director**

Larry Botham is the founder of Bioaction Pty Ltd and is the technical executive of the company. He has spent the last 20 years in the environmental industry with particular focus on the application of minerals and organic media for the treatment environmental depleting contaminates (liquid and gas).

In the recent years there has been a focus on the research surrounding biofiltration for emission and odour abatement. As part of the research and product development Larry has been the leading participant with the research partners; Environmental Biotechnology Cooperative Research Centre, Murdoch University, UNSW, and Macquarie University.
