

John Murray

Associate Director

John is a Director, General Manager, and Operations Director with over twelve years board level experience across the public and private sectors with particular experience in the logistics & supply chain, FMCG and operations industries.

At board level his highlights include: The business turnaround and sale of the National Foods Juice business and the revitalization of the Crane Copper Tube business. In an executive capacity he is currently Director Food and Agribusiness at the Department of Industry Innovation and Science. John has a Master of Business Administration and a Master of Science (Food Science) from the University Western Sydney, and is a graduate of the AICD's Company Director Course
