

Lean for Small and Medium sized Enterprise Workshop

Lean concepts are powerful tools for increasing productivity and enabling your business to reach its growth and profit potential. However, the challenge is to adapt these powerful techniques, so they are relevant to the challenges of a small and medium sized enterprise.

In this highly interactive face to face workshop, you will learn:

- Why achieving profitable growth is such a challenge for small and medium sized businesses.
- Core Lean principles that will help you see opportunity in your businesses.
- Why a “big company solution” like Lean works so effectively in smaller businesses.
- The steps to successful Lean implementation in small and medium business.
- How to unlock your business’ growth potential.

Participants will discuss how these issues are relevant to their own businesses and develop a simple “One Page Plan” to address key issues.

The workshop also features the airplane game, which is a great way for SMEs to understand key Lean concepts. It enables you to get practical hands-on experience of how Lean can transform business performance.

This event is aimed at business owners and senior leaders and is designed for 2-3 people from each business to attend on the day. **This is a free workshop.** Morning tea and lunch provided.

When: 23rd August 2022
Where: Mingara Recreational Club – Tasman Room
12-14 Mingara Drive, Tumbi Umbi NSW
Time: 8.30 am to 4.00 pm

Presented by Timothy McLean
