

Gail Cottrill

Director

Gail has over 25 years experience working in a family owned manufacturing business OpenShutters. In all these years she has worked in all aspects of the business, from on the factory floor to onsite design consultations with builders and architects, co-ordinating areas of marketing, assisting in the book keeping, and finishing up as Managing Director.

Recently she had to give up that role, and is dedicating her time and experience to assisting and supporting other small/medium manufacturers on the Central Coast to grow and thrive.
