

Supply Chain Logistics Forum – 27th February

Supply Chain Forum Recap – A Look Inside Chamberlain Grifco’s New Somersby HQ! ◆

On the 27th February we kicked off our first Supply Chain Forum for 2025 at Chamberlain Grifco’s impressive new 19,000-square-metre facility in Somersby—a major milestone for the company after outgrowing its former warehouse in Gosford.

The event featured insights from Graeme Sheekey, Director of Operations and IT, who walked us through the meticulous planning behind Chamberlain’s relocation, including:

- ✓ The strategic approach to moving equipment and managing inventory
- ✓ Establishing a robust IT infrastructure to support the consolidation
- ✓ The development of their new R&D test facility

Supply Chain Logistics Forum – 27th February

Following the presentations, attendees were given an exclusive site tour of the new headquarters, which now brings together Chamberlain's manufacturing, warehousing, and engineering teams under one roof for the first time.

A big thank you to our partner Rarekind for their involvement , which has been a 10-plus year relationship in holding these events, and to the Chamberlain team for hosting us at such an incredible venue! This forum set a strong tone for the year ahead, and we look forward to continuing these valuable industry conversations in 2025.
